

Quick Start Guide

CJB1FN2ALAAB

This product meets applicable national SAR limits of 2.0W/kg.

The specific maximum SAR values can be found in the section of this user guide.

When carrying the product or using it while worn on your body, either use an approved accessory such as a holster or otherwise maintain a distance of 15 mm from the body to ensure compliance with RF exposure requirements. Note that the product may be transmitting even if you are not making a phone call.

Safety and use

We recommend that you read this chapter carefully before using this device. TCT Mobile disclaims any liability for damage, which may result as a consequence of improper use of this device or of use contrary to the instructions contained herein.

	Do not switch on your device when its use is prohibited or when using the device may cause interference or danger.
	Follow rules or regulations in hospitals and health care facilities. Switch off your device near medical apparatus.
	Switch off your device in an aircraft. The device may cause interference to aircraft control signals.

	<p>Switch off your device near high-precision electronic devices. The device may affect the performance of these devices.</p>
	<p>Do not attempt to disassemble your device or its accessories. Only qualified personnel are allowed to service or repair the device.</p>
	<p>Do not place your device or its accessories in containers with a strong electromagnetic field.</p>
	<p>Do not place magnetic storage media near your device. Radiation from the device may erase the information stored on them.</p>
	<p>Do not subject your device to high temperatures or use it in a place with flammable gas such as a petrol station.</p>
	<p>Keep your device and its accessories away from children. Do not allow children to use your device without guidance.</p>
	<p>Only use approved batteries and chargers to avoid the risk of explosion.</p>
	<p>Observe the laws or regulations on device use. Respect others' privacy and legal rights when using your device.</p>

It is recommended that the equipment only be used in an environment where the temperature is between -10°C and 50°C and humidity is between 10% to 90%.

1. Overview

1.1 Package contents

- LinkKey USB Dongle
- Quick start guide
- Warranty Card

1.2 Getting to Know Your Modem

Number	Description
①	Cap
②	USB interface
③	Indicator LED
④	Micro SD card slot
⑤	SIM Card Slot

1.3 How to start your modem

Step 1: Insert SIM card and Micro SD card into the device.

Step 2: Plug into Computer.

Step 3: Auto installation, Ready! Let's GO!!!

Note:

- Do not remove the SIM/Micro SD card when the card is in use.
- If the connection failed, access <http://192.168.1.1> to check the status.
- If you cannot access <http://192.168.1.1>, disconnect other network, remove the modem and re-insert it, or restart your computer.

1.4 LED indicator

The description for the LED as bellow:

LED TYPE	LED Indicator	Description (state)
Network LED	Lilac Light constant for seconds	Power supply finished
	Orange Light Fast Flashing (5Hz)	Network Searching
	Constant Orange Light	Out of order
	Red Light Slow Flashing (1Hz)	Registering into LTE Network
	Constant Red Light	Registered to LTE Network
	Green Light Slow Flashing (1Hz)	Registering into 3G network
	Constant Green Light	Registered to 3G network
	Blue Light Slow Flashing (1Hz)	Registering into 2G network
	Constant Blue Light	Registered to 2G network

2. Quick Setup

Open your browser and input the address <http://192.168.1.1> to enter the main page.

Click “Settings” to configure the basic settings.

3. Certification

WEEE Approval

This device is in compliance with the essential requirements and other relevant provisions of the Waste Electrical and Electronic Equipment Directive 2012/19/EU (WEEE Directive).

This symbol on device means that these products must be taken to collection points at the end of their life:

- Municipal waste disposal centres with specific bins for these items of equipment.
- Collection bins at points of sale.

They will then be recycled, preventing substances being disposed of in the environment, so that their components can be reused.

In European Union countries:

These collection points are accessible free of charge.

All products with this sign must be brought to these collection points.

In non European Union jurisdictions:

Items of equipment with this symbol are not to be thrown into ordinary bins if your jurisdiction or your region has suitable

recycling and collection facilities; instead they are to be taken to collection points for them to be recycled.

RoHs Approval

This device is in compliance with the restriction of the use of certain hazardous substances in electrical and electronic equipment Directive 2011/65/EC (RoHs Directive).

Radio Waves

Proof of compliance with international standards (ICNIRP) or with European Directive 1999/5/EC (R&TTE) is required of all modem models before they can be put on the market. The protection of the health and safety for the user and any other person is an essential requirement of these standards or this directive.

THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO RADIO WAVES.

This device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) recommended by international guidelines. The guidelines were developed by an independent scientific organization (ICNIRP) and include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg.

Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the ICNIRP guidelines for this device model are:

Maximum SAR for this model and conditions under which it was recorded.		
Body-worn SAR	GPRS1900	0.872 W/kg

During use, the actual SAR values for this device are usually well below the values stated above. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value.

Body-worn SAR testing has been carried out at a separation distance of 15mm. To meet RF exposure guidelines during body-worn operation, the device should be positioned at least this distance away from the body. If you are not using an approved accessory ensure that whatever product is used is free of any metal and that it positions the phone the indicated distance away from the body.

The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They recommend that if you are interested in further reducing your exposure then you can easily do so by limiting your usage or keep the device away from the head and body.

For more information you can go to www.alcatel-mobile.com
Additional information about electromagnetic fields and public health are available on the following site: <http://www.who.int/peh-emf>

This device is equipped with a built-in antenna. For optimal operation, you should avoid touching it or degrading it.

Licenses

C E 0560

This equipment is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. The entire copy of the Declaration of Conformity for your device can be obtained through our Website: www.alcatel-mobile.com

Warranty

The device is warranted against any deviation from technical specifications for a period of twelve (12)⁽¹⁾ months from the date specified on your original invoice.

Under the terms of this warranty, you must immediately inform your vendor in case of a conformity defect on this device, and present a proof of purchase.

The vendor or repair center will decide whether to replace or repair this device, as appropriate.

Repaired or replaced this device is warranted ONE (1) month unless there are statutory provisions to the contrary.

This warranty shall not apply to damage or defects to this device due to:

- 1) Not following the instructions for use or installation,
- 2) Not being compliant with technical and safety standards applicable in the geographical area where this device is used,
- 3) Improper maintenance of sources of energy, and of the overall electric installation,

⁽¹⁾ The warranty period may vary depending on your country.

- 4) Accidents or consequences of theft of the vehicle in which this device is transported, acts of vandalism, lightning, fire, humidity, infiltration of liquids, inclement weather,
- 5) Connecting to or integrating into this device any equipment not supplied or not recommended by the manufacturer,
- 6) Any servicing, modification or repair performed by individuals not authorised by the manufacturer, the vendor or the approved maintenance centre,
- 7) Use of this device for a purpose other than that for which it was designed,
- 8) Malfunctions caused by external causes (e.g., radio interference from other equipment, power voltage fluctuations),
- 9) Faulty connections resulting from unsatisfactory radio transmission or caused by the absence of radio relay coverage.

Warranty is also excluded for this device on which markings or serial numbers have been removed or altered.

This device is also warranted against hidden defects (defects inherent in the design, manufacture, etc.).

There are no other express warranties than this printed limited warranty, expressed or implied, of any nature whatsoever.

In no event shall the manufacturer be liable for incidental or consequential damages of any nature whatsoever, including but not limited to trading loss, commercial loss, to the full extent those damages can be disclaimed by law. Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.
